LAST STEP TOWARDS IB DP AUTHORIZATION

Hermann Oberth International German School is a candidate school* for the Diploma Programme. This school is pursuing authorization as an IB World School. IB World Schools share a common philosophy – a commitment to high-quality, challenging, international education – that we believe is important for our students.

*Only schools authorized by the IB Organization can offer any of its four academic programmes: the Primary Years Programme (PYP), the Middle Years Programme (MYP), the Diploma Programme (DP), or the Career-related Programme (CP). Candidate status gives no guarantee that authorization will be granted.

For further information about the IB and its programmes visit <http://www.ibo.org>.

ONE MORE STEP TO IB DP AUTHORIZATION

From the early stages of **consideration**, Hermann Oberth International German School has worked tirelessly to make the International Baccalaureate dream true.

We began our **IB journey** by training our management team. Next, we applied for **candidacy**, and received a swift reply as our application showed both determination and involvement.

The months-long **consultation** phase was a period of learning, under IB specialist guidance. As such, our entire IB staff became first familiarized with IB Standards and Practices. Next, each and every one of our teachers underwent IB recognized training organized by Universities and Teacher-Training centres with decades-long tradition in IB training.

During the Application for **authorization**, teachers and management alike had to demonstrate their ability and competence in delivering the IB. Teachers mapped their courses in detail, and received specialized feedback from experienced IB trainers. The management team ensured all **facilities** are in place for proper delivery of the Diploma Programme: Arts Studio, Science Lab, Computer Science Lab, Library, Reading and Research Centre, Secure Storage for IB Exam Documents.

One last step awaits us: the upcoming specialized **IB DP Verification Visit**.
